

Free Call Accounting Classroom Training

For all customers on active maintenance!

Take advantage of this great opportunity to sharpen your skills, network with your peers, and learn how to fully maximize the value of your Veremark software.

All Veremark® customers on active maintenance are eligible to attend our two-day Call Accounting training course.

Students enjoy a hands-on learning experience and benefit from open discussions about best practices.

- Free tuition for two-day class
- One seat per Veremark software license
- Training at Veremark's Pittsford NY headquarters
- Travel and living expenses not included

These classes offer a hands-on learning experience and the opportunity to discuss best practices with representatives from a wide range of companies and industries. Students leave with a clearer sense of how they can use their call accounting software to make informed business decisions.

Training is based on the current software release. If you register for the class and do not have the current release, we'll provide you with an upgrade link prior to your class dates.
