

“I’m saving a full business day each month!

VeraSMART Wireless Call Accounting from Calero enabled Kathleen Guzda, Telecommunications Analyst at Rochester General Hospital in Rochester NY, to switch to paperless processing of wireless invoices and automated chargeback, saving her a full business day each month.

Why is this woman smiling?

Kathleen Guzda poses next to the boxes of invoices she used to spend hours processing every month before switching to VeraSMART eCAS Wireless Call Accounting.

VeraSMART Helps You Combine, Simplify and Share

- Combine wireless data from AT&T, Sprint, T-Mobile, US Cellular and Verizon
- Combine landline data from multiple PBX platforms
- Import organization hierarchy (MACDs) from multiple sources
- Optimize trunking to match capacity to demand
- Track emergency calls and suspicious calling activity
- Measure productivity of call center teams and individuals
- Automate report distribution to employees and applications
- Scales to thousands of employees at hundreds of sites
- Web browser-based – access from any PC in the network
- HIPAA compliant
- Easy setup wizards and context-sensitive help
- Optional capabilities include Wireless Call Accounting, Personal Call Identification, International Call Rating, Enhanced Chargeback, EZ-Share™, and more

“No more spreadsheets!”

“With paper invoices, I had to manually enter the amounts for 1200+ users, and then add them all up manually and put them onto a spreadsheet for Accounting.”

“VeraSMART Wireless Call Accounting allows me to download the invoices and skip all that manual processing. Now I just input into VeraSMART any new lines that I have added for the month, download the files, and run the reports.”

“My time has been cut down a full business day each month for chargebacks. Thank you, Veramark!”

- Kathleen Guzda, Rochester General Hospital
